This procedure describes step by step how to install a security certificate for MyVAM.
https://myvam.vamservices.com/

Please use Google Chrome

If it's your first connection you have to create your password (refer to "Mandatory change of MyVAM password")

1- Enter your login and password and click on "Login"

2- Check your mailbox you will receive a code

Dear valued user,

Here is the code that will allow you to download your certificate : NpNnZnOS

Best regards,
The MyVAM Team

3- Copy/Paste the code and click on « Download certificate » :
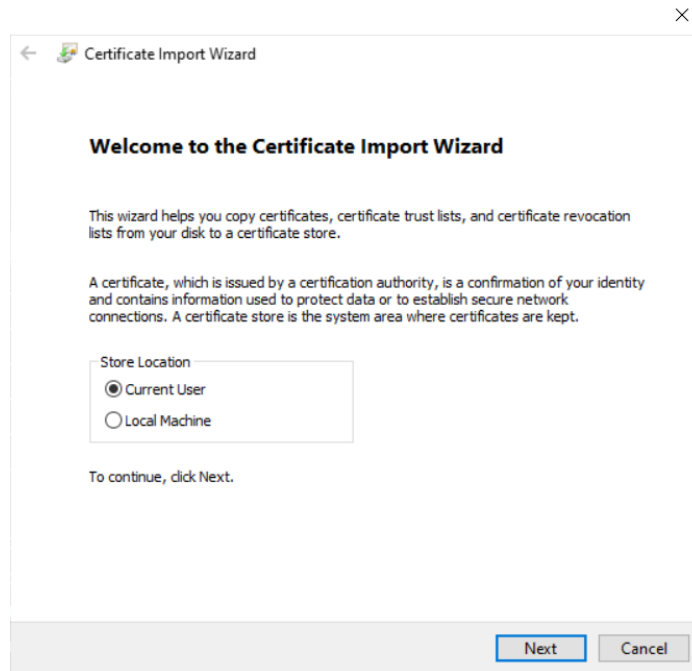

4- A document appear at the bottom left of your screen, Open it :

1_Manouvrier_Pau....p12 ^

5- Click on « Next »

×

← Certificate Import Wizard

Welcome to the Certificate Import Wizard

This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.

A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.
